NO. OF ENCLS.
(LISTED BELOW)

50X1-HUM

SUPPLEMENT TO
REPORT NO.

THIS IS UNEVALUATED INFORMATION

50X1-HUM

1. At Simeonovgrad on the Maritsa River, there is a reinforced concrete bridge approximately 300 meters long and 16 to 18 meters wide. The bridge has 10 piers.
2. At Lovech on the Osum River, there is a stone bridge approximately 100 meters long and 12 meters wide.
3. At Konyavo on the Struma River, on the road to Kyustendil, there is a reinforced concrete bridge 150 meters long and 14 to 15 meters wide. The bridge has five piers.
4. At Fakiya on the Fakiyska River, there is a reinforced concrete bridge 150 meters long and 12 to 14 meters wide. The bridge has five piers.

5. At Levunovo on the Struma River, there is a bridge 200 meters long and 12 meters wide which has a capacity of 60 tons. The bridge is of reinforced concrete, has an iron parapet 1.20 meters high, and four cement piers. The rail line to Petrich passes over this bridge.
6. At Breznitsa on the Struma River, near the village of Vlakhi (south of Kresna and northeast of Breznitsa), there is an iron bridge 40 to 50 meters long and 10 meters wide. The bridge has two iron piers. This is a very important bridge because it is the only means of passing beyond this point.
